

International Baccalaureate (IB) Fees

The International Baccalaureate Programme, being a program of choice, charges students additional fees over and above regular program HWW school fees in Grade 11 and 12. HWW collects these fees and submits them to IB directly on behalf of all IB students. The fees for assessments and exams are collected in both Grade 11 and 12 depending on the students' registration in IB courses. Families will be invoiced for IB fees in October for the 2018/19 school year. Being a program of choice, there is no wavering of fees that would apply to these IB costs. Please note, once a student is registered into an IB course, it is a commitment that they will complete the external and internal assessments that are a component of the programme over the duration of the semester and pay ALL necessary IB fees.

Students receive the following services from IB:

- Comprehensive assessment using a wide range of assessment methods including moderated internal assessment and externally marked examinations
- Assessment by an international team of examiners and moderators, overseen by independent chief examiners
- Clerical checking of assessment material to ensure administrative accuracy
- Where appropriate, access arrangements and consideration of individual special circumstances
- Access to results one day after results are released to schools
- A printed diploma, diploma results or certificate (depending on their results)
- Transmission of results to universities worldwide, upon request
